The MOTOR NEW CAR

Sport Coupe

IGNITION SYSTEM

Battery coil and high tension distributor. Distributor of Ford design placed above centre of cylinder block. Long leads to spark plugs eliminated. Distributor points accessible and readily adjusted. Ignition wires enclosed in steel conduit. Ignition lock thief-proof. Coil Ford design.

Ignition is of the single coil, high tension jump spark type. Current from the six-volt battery is built up to approximately 20,000 volts by coil. The distributor head is of elongated design with terminals for the spark plug leads embedded in it, located in such a way as to make it impossible to cross wire spark plug. Short lengths of un-insulated copper strip connect from the distributor head to spark plugs. Possibilities of trouble due to short circuiting or defective wiring to spark plugs is eliminated; copper strips being held securely in their proper position by their own tension.

Distributor cover can be readily removed, completely exposing contact points which are easily cleaned and adjusted with a screwdriver as screws are used for locking adjustment instead of bolts requiring special wrenches. The cover is so constructed that it can only be replaced correctly, the drive being slotted off-centre to receive the distributor shaft, thus ensuring that the motor is always timed correctly. The low tension wires leading from switch to distributor are encased in a case hardened flexible steel conduit, which makes it impossible to wire around switch to start motor.

Hotel Royal, near C. P. R. station, on main street, Vulcan. Rates 50c, 75c, \$1. There will be no services in St. Aldhelm's Church, on Sunday, March 18th.

Good Deeds Women's Institute met at the home of Mrs. Robert Irwin on the 8th of March, and the session was opened by saluting the flag, reading the creed, and the singing of the Canadian anthem. Following the regular order of business there was a demonstration of flower making by Mrs. Lambert. Prize for the best Irish joke was awarded to Mrs. Montgomery. Miss Theresa Smith was the lucky winner in the drawing for a quilt. The next quilt will be for members only, and the time set is the date of next meeting. Dainty lunch was served by the hostess. Next meeting will be held on April 12th at the home of Mrs. Harry Smith, and the names of native wild birds will be given in answer to roll call. The social and dance put on for Good Deeds on March 9th was much enjoyed by all, being the first event of the kind this year in the district, and the proceeds amounted to \$42.25.

The Vulcan branch of the Canadian Legion, B. E. S. L., have now decided to go ahead with the building of the Memorial Hall. The building will be 50 x 100 feet, with full basement, and will include gymnasium, sports room, reading, writing and card rooms, baths, etc. It is also intended to have living quarters for members. The beer room will be in the basement, with separate entrance, and will be detached from the remainder of the building. When completed, the Memorial Hall will fill a long-felt want in the town and district, and the Legion are to be congratulated on their progressive policy. The Legion are offering to their members and the investing public five year bonds fully secured and paying 5%, and these are being taken up locally. This affords a chance to our public-spirited citizens to help along a worthy institution and at the same time make a good investment. We heartily endorse the project as being worthy of support.

The sudden passing on Sunday last of Mrs. Hoskyn was a decided shock to the people of the community, all of whom in sympathy share in the sorrow of a loss with those who mourn. Deceased, whose maiden name was Laura Cousins, was born in England, the daughter of Mr. and Mrs. William Cousins, and came to Canada with her parents. At Swift Current in 1917 she was married to Mr. C. H. Hoskyn, and came with him just less than five years ago to Vulcan, where two children were born to them. Mrs. Hoskyn was of a quiet and kindly disposition, devoted to home and family, and commanded the highest esteem of all to whom she was known. She was a member of the Anglican church, and the funeral services were held at St. Aldhelm's, conducted by Rev. F. D. Kemp. Beautiful floral contributions from personal friends and local organizations were tributes to the memory of departed and carried the message of their regard to a bereaved husband, who has a high place in the estimation of fellow citizens. The obsequies were attended by the parents, and nephew, Mr. Percy Cousins, all of whom reside at Elkhorn, Manitoba, where also resides a brother Jack, and in England there is another brother, Walter.

Five dollars each will be paid by Mr. B. R. Lommatzsch for a number of mother cats to be used in nursing fox puppies. Phone 1009.

If the farmers of Vulcan district, who desire registered seed are not to be disappointed they should not procrastinate any longer. Place your orders now is good advice to heed.

The committee of the Vulcan rest room desires to thank the Kirkcaldy Women's Institute for their donation of \$18.40, Thigh Hill W.L. for \$20.55, and Eastway W.L. for \$10.00. The annual meeting of the committee will be held on Saturday, March 31st, at the rest room, commencing at three o'clock.

When there is a break-down in the printing shop, such as that which occurred last week in The Advocate plant, everybody in the wide world knows it, the delay in publication telling the tale. However, out of the circumstance which commands our appreciation, and gets it, and that is the patience of our subscribers and readers.

The Odd Fellows and Rebekahs social night on Friday last is one more to add to the list of successes under these auspices. The program on this occasion was somewhat varied by the introduction of a number of leap year features. These events are becoming increasingly popular and afford real pleasure for a large number of our people.

The exchange of several visits by the members of North Star lodge of Masons at Lethbridge and Vulcan lodge has made them intimate. When the North Star lodge celebrated the fortieth anniversary of institution, Vulcan lodge was invited to attend and participate. And when more than fifty Vulcanites, assigned to a special coach on the train, made the trip to the south city it can be recorded as some event. A party of this size easily made the train trip interesting. They were met on arrival by a reception committee, conveyed in cars to the V. M. C. A. and there dined and royally entertained. The afternoon was spent in each going their own way to visit to see the city, and perhaps to shop a little. This was the second day of the celebration, and at eight o'clock in the evening there were more than five hundred assembled to participate in the fun features of the event. Vulcan made its contribution by presenting "The Initiation of Philander McNutt," a burlesque of lodge procedure, which was received with immense applause and accorded the high praise of the officers of Lethbridge lodge. There was also music and song and dancing, and at midnight supper was served. The trip home on the train, even though in the slumber hours of the morning, was not without its pleasures, and terminated the realization to the limit the greatest anticipations of the visit to Lethbridge. This is but the briefest record of a most elaborate and pleasurable affair. Among former residents of Vulcan now in Lethbridge to greet the visitors were Miss Dorothy McQueen and Constable Davies.

The first meeting of the Vulcan town council of 1928 was held this week, and all the members were present, namely, Mayor Butchart and Councillors Elves, McAskile, Simington, Collier, Allan and McInnes, the two last named being the new members on the board. The chief business was the striking of the standing committees, which are as follows, the first named in each case being the chairman: Public Works, McAskile, Collier and McInnes; Rink, Elves, Allan and McInnes; Parks and Cemetery, Elves, Simington and McAskile; Fire and Building, Collier, McAskile, and Simington. Councillor Elves was selected as Deputy Mayor. The first Monday in each month was selected as the time of the regular meeting of the board. The town account will be continued at the Bank of Commerce. A number of bills were presented for payment.

LOCAL NEWS ITEMS

Mrs. E. Finckh, of Vulcan, is a patient at the hospital this week, having had her tonsils removed, and is doing nicely.

Mr. Chambers, of Lomond, was able to return to his home on Wednesday, after being in the Vulcan hospital a short time, the removal of a toe being necessary.

Mr. Grif Hughes reports the hatch on his farm of a dozen chicks on March 12th. Mr. Hughes has for times reported the earliest birds. Incidentally the editor always fares well from his flocks.

The last issue of the town paper announces the removal from Vulcan to Champion of Mr. "Shorty" Atkins, who has acquired an interest in one of the garages in that town. Mr. Atkins was formerly with the Pyramid Motors.

Every now then a stroke of work is being done on the new church building for the congregation of the Church of Christ. Volunteer labor has been the chief contribution to the construction of the building, and only the weather has prevented the completion of same.

Mr. John F. Miller, eye sight specialist, of 404 Underwood Block, Calgary, will be at Jones drug store, in Vulcan, on Saturday, March 24th, for the purpose of correcting your and your children's eyes. Do not miss this opportunity.

Two rinks of Vulcan curlers went to Champion Saturday night to curl. One rink lost and the other won their game, but as it was a double rink competition, Champion scored a victory by two points. Once in a while our rinks do drop a game or two.

Dissemination of information by the Department of Education and Publicity of the Alberta Wheat Pool, through the medium of radio, has elicited expressions of appreciation from listeners-in of the Vulcan district, published in the U.F.A., and from F. C. C. Andrews, J. A. Love, and Mr. and Mrs. Dovey.

Val Halle, magician and musician, and associate artists, were the attraction at the theatre on Monday night. It was a dandy little show, and they promised to play another engagement here. They are good fellows, and went after the performance to the dance at the hall and rendered a number of guitariste selections to the delight of the dancers.

Proceedings of the Women's Institute District Conference reveals the fact that Mrs. Nellie McClung has made the offer of a donation of trophies for oratory competitions open to members of W. I. Girls' Clubs. This makes opportunity for the Maple Leafs and other clubs of the kind in this territory, adding to that afforded by the school fair for development of this talent.

The warm days of this week would indicate the approach of the finish of the skating rink business for this season. The rink has furnished pleasure for perhaps as many as usual of the younger people, but there would appear to be a diminishing patronage by adults. Skating started earlier this season than ever before and there has been lots of it. With the new seating accommodation there will be increased use for the rink in other seasons, and there are those that might now be wishing that the ice was already out.

The construction crew are digging holes and erecting poles for the extension from Vulcan of the hydro electric system and service, that will for the present go east as far as the O. L. McPherson farm. Extensions are likely to be made in other directions from this town, and perhaps in a short time the demand will be such that these extensions will be continued. The Calgary Power Company have certainly made a wonderful record in expansion during the last twelve months, and weather and roads are not to any great extent permitted to impede their enterprise.

Miss M. Brown, who has been very ill at the Vulcan hospital for the past two weeks, is now convalescing and able to be about some.

The first meeting of the Vulcan town council of 1928 was held this week, and all the members were present, namely, Mayor Butchart and Councillors Elves, McAskile, Simington, Collier, Allan and McInnes, the two last named being the new members on the board. The chief business was the striking of the standing committees, which are as follows, the first named in each case being the chairman: Public Works, McAskile, Collier and McInnes; Rink, Elves, Allan and McInnes; Parks and Cemetery, Elves, Simington and McAskile; Fire and Building, Collier, McAskile, and Simington. Councillor Elves was selected as Deputy Mayor. The first Monday in each month was selected as the time of the regular meeting of the board. The town account will be continued at the Bank of Commerce. A number of bills were presented for payment.

LOCAL NEWS ITEMS

Rev. F. W. Chapman, of Carmanagay, will conduct the services at the United Church next Sunday morning and evening.

Mr. and Mrs. Freddie Mensinger, Jr., have returned home and are rejoicing over the birth of a daughter, born in the General Hospital in Calgary, Friday, February 24th.

Attention of the members of Vulcan Women's Institute is directed to the fact that the basketry course will start on Monday morning next, March 19th, in the school room of the United Church. All be there.

Paint of appropriate color has made a distinct improvement in the appearance of the interior of the McLaughlin & Manson store, and this and the re-arrangement of the fixtures and stock is also made to the advantage of the Campbell meat market.

Frigidaire equipment is being installed at the Canada Cafe, and like installations are to be made elsewhere in town. The old-time ice-man is surely and steadily passing. Now, with the advantage of electricity, the modern methods of refrigeration are being adopted in Vulcan.

On Monday and Tuesday, March 19 and March 20 Babe Ruth in "Babe Comes Home," will be the feature attraction at the Vulcan theatre. This picture is playing under the auspices of the Vulcan baseball club, and the proceeds will be used in equipping the team for the coming season.

Mr. Ed. Carruthers is going about all right, but with a limp, the result of an accident of a week or two ago. While at work teaming, the sleigh upset and a portion of a load of lumber slipped off and onto his foot, breaking some of the bones in that member.

Mr. A. E. Woodman brought to the newspaper office one day this week a hen egg of abnormal proportions. It measured 8 x 6 inches and weighs quite a quarter pound. This egg is on exhibition in the window of the P. B. Discher jewelry store. When anybody has an egg that can beat this for size, bring it along and have the dimensions recorded.

The second bonspiel in connection with the community curling has been finished and the winning rink was that skipped by Mr. Jack Wolfe, who had as his aides Mrs. Ferguson, Mrs. Roe and Paul Baker. The runners-up was the rink skipped by Mr. Geo. Whitcher. Curling continues and another contest will be played if the weather and temperature permit.

The idea of a field day of sports for the schools along this line is being promoted, and the success thus far practically ensures the success of the proposition. Co-operation of schools in other towns has been readily promised, and the event which is to be held in Vulcan this year, will in turn take place in the towns participating. The schools of the several places will be in competition for school and individual prizes and trophies. The details will be worked out and made public in due time.

"Bill" Buxton, well known in sport circles as the donor of the boxing championship belts, in a recent letter to The Advocate, concerning Jimmie Mahon, our local boxer, says: "This lad has always impressed me by his determination, and straight-forward methods, to get to the top of his division, and in my efforts to put the boxing game on a high plane and encourage deserving boys, nothing would please me better than to see Jimmie attain his ambitions. I must congratulate the Vulcan branch of the Canadian Legion upon their work in sponsoring successful boxing cards, and would be only too pleased to assist them."

The Vulcan municipal hospital board as now constituted is composed of Messrs. Alex. Smith, Wilson Oldfield, A. L. Burrows, Bruce Roe and Alex. Mitchell. On Friday last the board was duly organized, and Mr. Alex. Smith selected as chairman. They had conference with the government organizer of hospitals and the architect employed. Much preliminary work was accomplished in the matter of location and construction. The property which has served some time as a football park has been accepted as a very suitable site. The sketch submitted by the architect as suggesting size and style shows a building of plain design, one storey with basement, forty feet wide and ninety feet long. It is proposed to have the building run east and west with the front facing the opposite way to the school. The building will be of solid brick, and so constructed that additions can be made in the easiest possible manner and without diminishing the attractiveness of the building. Members of the board describe their meeting as one of entire satisfaction and affording the opportunity of the thousand and one things that will at once command their attention and consideration. Mr. Flood will attend to the secretarial duties at least during the preliminary period.

LOCAL NEWS ITEMS

Born, on March 10th, 1928, to Mr. and Mrs. Kriss Rupberg, a son.

Mr. Harold Twiss went home to High River this week on account of the illness of his mother.

An ad. in this issue indicates that a caretaker of the schools is required the present man having resigned. This is a good job for somebody.

Mr. Don Devereaux, of the Shimp Land Company, has this week negotiated the sale of eight hundred acres of land in the Champion district.

K. R. McLean, sight specialist, 212 Herald Building, Calgary, desires to announce that he will make his monthly visit to Vulcan, at King's drug store, Saturday, March 31st.

Two new projection machines are the latest additions to the string of improvements lately made in the equipment of the theatre. Every change is quite apparent and as much appreciated.

The Ladies Aid, of the United Church, will hold a sale of home cooking, candy and aprons, and serve afternoon tea, in the school room of the church, on Saturday afternoon, March 24th, from three to six o'clock.

The Easter bazaar, under the auspices of the ladies of St. Aldhelm's Church, will be held on Saturday, March 31st. A feature of the event will be a made-in-Canada booth, and there will be the sale of home cooking and fancy work. Afternoon tea will be served.

The last issue of the U.F.A., the official paper of the organization bearing the name, prints a splendid photo of the Hon. O. L. McPherson, in connection with the published speech of the minister in connection with the discussion in the legislature of the provincial road policy.

Two capacity houses patronized the showing of the picture "Chang" presented under the auspices of the High School Club, and furnished considerable coin to the exchequer of that organization. It was a great picture and the profits will be utilized for a good purpose.

Going about on crutches is the method of locomotion just now being employed by Mr. B. R. Lommatzsch, who sustained painful injury by a recent fall. He slipped on the ice on the road some distance from his home in the country, and strangely it happened when he was watching his step and at a spot where he had seen another man take a tumble.

The Advocate has printed tickets for a special picture to be presented at the theatre, under the auspices of and for the benefit of Vulcan baseball club, an early indication that Vulcan is to have a team this year. This picture depicts exploits of the famous Babe Ruth, some of which will no doubt be emulated to an extent by the hitters on the local squad.

The Silent Partner, a periodical published in the interest of the employees of the Government telephone system, and carrying contributions made by them, gave Vulcan some splendid publicity in the last issue, carrying some photos of some of the girls on the local staff. The Advocate is pleased to make mention also of the attractiveness which these pictures give to the telephone journal. The Silent Partner does not maintain its name in what it says about the activities and prospects of the young ladies, which it will not here be ventured to copy.

A large and appreciative audience turned out last Thursday evening to hear Norman Wilks the famous English pianist in recital. A grand piano sent specially from Calgary by the Heintzman Co., added greatly to the enjoyment of the programme. The opening group by Chopin was well received. The waltzes were notable for their fascinating rhythm and lightness of touch. The climax of the first group was reached in the B Minor Sonata with its delightful Scherzo and Sombre funeral march. The next number was the Moonlight Sonata by Beethoven. The Adagio movement displayed a beautiful legato tone and the Presto Agitato was magnificently played. Following this there was a Debussy group. "The Engulfed Cathedral" was played with rare poetic feeling and was a masterpiece of tone shading. "The Minstrels" was perhaps the most popular number with the audience and displayed great wit and humor. "Papillons" by Schumann delighted the audience and in this number the artist showed a remarkable sense of rhythm. The Liezt Rhapsodie, number 6, was the last number on the programme and showed to great advantage Mr. Wilk's dazzling technique and marvelous control. The octave passages were amazing and the speed was almost incredible. Mr. Wilks responding generously to encores playing "Fireflies" by Bridges, "The Dripping Tap" by Benbow and the E minor waltz by Chopin. Vulcan was indeed fortunate to have the opportunity of hearing an artist such as Mr. Wilks.

FARM FINANCING

THROUGHOUT Canada the Bank of Montreal is daily loaning funds to responsible farmers to assist them in their business.

This Bank is at all times prepared to advance loans on terms consistent with sound banking.

BANK OF MONTREAL

Established 1817

Total Assets in excess of \$830,000,000

Vulcan Branch, H. S. SUTHERLAND, Manager

THE THREE R's

The following, though from an American magazine strikes home in our own country: "In the search for improved methods of instruction, we have neglected to maintain proper emphasis upon such homely fundamentals as grammar, penmanship, spelling and pronunciation. Legible writing is as rare in the rising generation as is the familiarity with the proper juxtaposition of the letters forming a word. Split infinitives and faulty punctuation are as common as unintelligible speech. As a nation we are long on icing and short on cake. It is a common spectacle to see a college graduate groaning with writer's cramp after penning a page of script. The old fashioned spelling-bee and the inkstained copybook have gone with the buffalo and the tandem. Sound education is a composition of many important small elements. The individual who refuses to perform the drudgery of laying its foundation stones cannot escape the consequences of his lack of application.

THE LADY MEMBER

Miss McPhail, M.P., has turned her guns upon her erstwhile friends, who while professing Progressive principles, are supporting a government that, she says, violates those principles. That the Liberals are nearer those principles than the Conservatives does not appease her. She prefers the honest opposition of the Tories to the false friendship of the government. But what was she to expect from a coalition which she helped to bring about? With Mr. Forke a member of the government, what was there left but compromise, and who better able to make sacrifices than Mr. Forke, and his followers in the House? Mr. King meets them by making slight alterations in the tariff. His own supporters will not allow him to go further. Even those slight reductions are probably repugnant to some of his own colleagues and many of his own supporters. Nor need he care for Mr. Kennedy's veiled threat that the Progressives might join with the Conservatives if they do not get what they want from the Liberals. The Progressives are not going anywhere in a body, and those who leave the group will be influenced by conditions in their own constituencies as to what party they will join.

SEED CATALOGUE TIME

Whether the seed catalogue is a superstition or a bad habit is a much disputed question and worthy of the consideration of the Wednesday Night Debating Club, but that it is as inevitable in January as New Year's Day is indubitable. Next to a certain mail order house catalogue and before the almanac it is the most read of the family shelf of free literature. It might be suggested that it is also the most popular picture book on the sitting room table. What visions of giant corn stalks, balloon size cabbages, over-populated potato hills, tender lettuce, dazzlingly beautiful flowers and trim hedges are reared in the mind's eye of dad and mother when the new catalogue from the seed company arrives. They pore through its leaves selecting the varieties they will plant in the backyard garden in the spring. And the kids are not immune from this seed-mania. They fight for the new seed catalogue and thumb through its pages in search of good things to eat and the plants and vegetables they will have in their gardens in the spring. With the seed catalogues the kiddies extend the planting, cultivating and harvesting over all 12 months of the year, with the best results attained when the garden patches of the grown-up folks are lying idle. The erroneous impression that spring fever is first contracted in the spring from the early buds or the twitter of the north-bound birdlife is corrected every January when the mail man delivers the first seed catalogue, with its appetizing pictures of fresh garden vegetables, early flowers, corn on the cob, red luscious strawberries, mellow cantaloupe and ripening fruit. The mail order seed houses know their business, as well as man's failings.

USE OF TRACTORS

Manufacturers of tractors, predict a great era in the future. Implement managers report that tractor collections are invariably good. There are many outstanding payments on binders, mowers, plows, etc., but the men who taking out tractors are meeting their obligations. This is partly due to the increasing use of the combine. It is expected that for the next five years in all the wheat fields from Kansas to the Peace River combines will be sold as fast as they can be made, and eventually each of these combines will have a tractor. Even in Manitoba where there is grain depression due to rust, tractor sales are mounting. Because early seeding is the best practical way of keeping down rust losses, and nothing speeds up spring work like a tractor. Prairie Canada could feed another Kingdom from her scrub land. The pioneer system of land clearing is too slow and too costly. Power will do the work so cheaply as to make the buying of brush land a good investment. A bush farm has no terrors for a man with a tractor. Reward comes quickly. The tractor companies are confident that their future is secure. Grain Growers Guide.

Here's an excellent hint to those who would abolish war: Pray more and prey less.

OUR PET SUPERSTITIONS

The average individual claims that he is not superstitious, but to most of us cling remnants of beliefs in signs and portents.

Witness the appearance of a black cat on a street. At once discussion starts as to whether or not it is lucky to have it cross one's path.

See a white horse, and if luck is going to hold, you must look for a red haired girl.

Drop a glass and break it, and you may as well break two other articles at once, for it is bound to run in threes. Bad luck always runs in threes.

If you are obliged to return home for some forgotten article, be sure to sit down for a minute to save a disappointment.

An open safety pin should always be closed immediately on being picked up. That brings luck.

A pinch of salt in the shoe, and a cross of salt in the bed cures insomnia—Try it.

Who, of us all, does not touch wood immediately upon making a boast? This is an old German charm to ward off the power of evil which boasting invites.

Keep your fingers crossed when you meet a cross-eyed stranger. Yet we are growing less fearful of the imps of bad luck. Most of us nowadays walk unthinkingly under ladders without any special results.

A COMING MAN

Hon. Mr. Dunning achieved a triumph by his speech in defence of the budget. The cheers in the House were continued after he went into the lobby. It heartened the Liberals, but was not designed to hearten the Progressives, except such as purpose to run as straight Liberals at the next election. Mr. Dunning is the strong man of Saskatchewan, but he gained his strength by linking himself with the Progressive movement. Now that he chooses to fight that movement the show-down must come. How many Progressives he can carry with him into the government camp remains to be seen. Most of them will stick to the government, but the show-down will be in the constituencies, not in the Commons. Dunning is the man who is wiping out the Progressive movement, and he is getting considerable support from Progressive members.

MISSING BALLOTS

They are having a ballot scandal down in Ontario. Mr. Sinclair, the leader of the Opposition, has nineteen ballots which he says, were found in Ottawa. The government appointed a committee of investigation. This committee met and proceeded to wrangle. Mr. Sinclair refused to produce the ballots until the government produce the ballot box. He said he got the ballots from Mr. Smith, a lawyer, once Liberal organizer, who says he got them from a civic employee whose name he will not disclose as it might jeopardize his position. The last provincial elections in Ontario were fought on the issue of government control. In previous plebiscites and referendums, Ottawa had given substantial majorities against prohibition and it would seem foolish to use bogus ballots there, because unnecessary. As Danton said of the murder of the Duc D'Enghien, "it was worse than a crime—it was a blunder." Premier Ferguson has withdrawn the issue from the Legislative Committee and has appointed a judicial commission instead to investigate.

Isn't it a fact. The greatest enemies of any good cause are extremists who favor it.

THE CAT CAME BACK

Premier King is not easily made captive. It was thought for a while that Marcell's resolution censuring the government for recognizing Mexico was going to place the government in a difficult position. It looked as if Marcell meant business. After the House met he resigned his position as chairman of caucus so as to leave himself free to push his resolution. Shortly after, he withdrew his resolution and took back the chairmanship of caucus. What influence was brought to bear upon him will not be publicly known, but it surely was something more than fidelity to the party. Of course, a government has a strong hold upon the loyalty of its followers. Opponents of the government who expected to see a breach in the government ranks on this question have been disappointed, although some damage has been done by the very circumstance that the resolution was placed on the order paper and withdrawn and that Mr. Marcell resigned the chairmanship of caucus and afterwards accepted reinstatement.

MAPLE SYRUP TIME

To every man his own nose and the memories evoked thereby. It is at this time of the year, that all those who have lived in their youth, in a sugar maple land, unconsciously sniff the air for the possible whiff from boiling sap. On a fine clear March morning, breaking warm after a frosty night, our neighbor will draw a deep breath and say "Great weather for sap." And we feel it is the truth—although sap-weather has played no part in our lives for twenty years or more. It is a hang-over from youth, so strong that a man actually can catch a whiff from some heavenly "first boiling." Truly, the nose, though a humble organ is responsible for rousing many delightful memories. In May and June, one catches from somewhere, the mingling fragrance of apple and lilac blossoms. In summer, a stray breeze will cut sharp across the present scenes with a faint and far-off memory of clover fields after a rain. Invariably in late August, we have caught, across the miles, the perfumes from the old grape-trellis at home. And it has been declared that the so called bracing qualities of our crisp autumn air, are produced by nothing more or less, than the universal odor of chili sauce, rising from the kitchens of Canada. Many a poetic fancy is conceived in the nose.

Have you ever observed that a good tariff law is one that puts import duty on your products, furniture for instance, so they will sell high, and none on the other fellows, so you can buy cheap.

Partners in Canadian Business

Each one who opens and builds a savings account in the Canadian Bank of Commerce becomes a partner in Canada's business. Every dollar thus deposited, less a reasonable and safe proportion for reserve, is used by someone in the shape of a loan. This is used in the conduct and development of Canadian business.

The individual deposit becomes a working factor in the agricultural or commercial life of Canada, and the depositor himself shares in the prosperity which he has in measure been made possible by his deposit. The Canadian Bank of Commerce has over 500 branches where each day this great co-operative work goes on.

THE CANADIAN BANK OF COMMERCE

Capital Paid Up . . . \$20,000,000
Reserve Fund . . . \$20,000,000

Vulcan Branch, L. A. Wright, Manager.

Twin-City Tractors

If you are still going to buy a Tractor, and don't know who to believe, and you have any friends or relatives who are familiar with the different types of Tractors farming in the following States—Minnesota, Dakota, Montana, Nebraska, Wisconsin, Illinois, Iowa, Kansas, Oklahoma—drop them a line and ask them, "What Tractor is most popular in their part of the country, and gives the longest life and best value for the dollar."

The Twin City is so popular in its own native country and all over the world, that it is impossible to have them standing around in large quantities, but if you place your order in the near future, we have reasonable assurance of being able to furnish a Tractor as there are two carloads en route from the factory to Vulcan at the present time.

Service is a grand thing in the purchase of a Tractor and if you have any doubts as to your chances for Service, drop in to the Twin City warehouse at 9th Avenue and 9th Street West, when you are in Calgary, and see what your chances are for Service.

McINTYRE & COY.

Agents, Vulcan, Alberta.

ONTARIO REFORESTS

The Ontario Government, through the Forestry Branch, has for distribution this year ten million forest trees. It is expected that three-quarters of them will be used by private individuals, for re-foresting waste areas for windbreakers. Any resident of the province may secure 3500 trees free for reforesting and an additional 500 of spruce and cedar wind breaks.

TRAGEDY—COMEDY

There comes from London, Ontario, the story of a lively scene in a west-end home which ended more cheerfully than it began. The mother of the home, was carrying a bowl of red currants across the kitchen, when she slipped and fell with a bang, striking her face and person with juice and stunning herself. A daughter rushed out on hearing the fall, and seeing her mother lying covered with gore, she fainted. Another daughter rushed to the scene and seeing both lying lifeless, one a horrible sight, she too fainted. The father then arrived and viewed the scene—clearly murder of the basest sort and perhaps suicide, he rushed to the phone for the doctor. By the time the doctor arrived, all three victims had come to, and were sitting on the floor shrieking with laughter.

THE CANNY SCOT

Bruce Walker, director of immigration at London, England, formerly in emigration work at Winnipeg tells, the London News how the Britisher as an emigrant, in days before the war, approached the employment office for a job. The Englishman would say "I am a bricklayer." Possibly he would be told that no such job was at the moment, available, but that work could be found for him in excavating—later getting his bricklaying job. The Englishman would reply "It's bricklaying or nothing" and walk out. The Irishman would say with a smile "Give me any old job." But the Scotsmen were canny—they would announce "I'm from Scotland, I want a job." "What kind of a job?" The reply was always the same "What kind of a job have you got?" The Scotsmen got the pick of jobs every time. They would take the best going calmly, whether for a policeman or a bank manager.

ADVISED TO TEST SEED GRAIN

Warning is being issued to farmers at the present time in connection with the germinating quality of the grain which they propose to use for seed. Where grain has been exposed to the weather over winter as has happened this year in some sections of the province, it is particularly advisable to secure a germination test on this grain before it is used for seed. A one-pound sample of grain should be sent to the Dominion Seed Laboratory, Calgary, where tests will be made free of charge for farmers. Satisfactory germination tests can also be made at home by planting two lots of 100 seeds each about inch deep in boxes of soil or sand. The tests should be kept fairly moist and at living-room temperature for about twelve days. Note should be taken of the number germinating in six days which indicates the vigor of germination, and the number germinating in twelve days which indicates the total number of viable seeds. It is strongly recommended that germination tests be conducted as early as possible in the spring on all grain intended for seed.

TALK ON PEACE

The following talk was given by a prominent official of the U.F.W.A. to the women of Alberta which is worthy of perusal by all readers of The Advocate. The address deals with two subjects, the U.F.A., its origin growth and purpose, and the World Peace Movement.

Any social change emanates from a few minds of far vision. The U.F.A. was a movement involving a change of thought, habit and custom. It has been called progressive. The economic feature of the movement is important, but no economic fact in itself can create the inspiration to hold any large number of people indefinitely. Only a great ideal can do this—an ideal which looks toward a co-operative society rather than competitive.

Many of the so-called theories of the U.F.A. organization are already a realized actuality. The motto is Equity—the watchword service. A definite plan of development was mapped out for this association. Rural morality depends on wholesome recreation. The promotion of social intercourse in U.F.A. gatherings has developed great community spirit. There is resultant improvement in homes, schools, health conditions. The U.F.A. directs much of the thought and energies of its members. Good citizenship is recognized.

Much of the credit of the U.F.A. progress and standards, must be given to many people of wide culture and advantage who have settled in Alberta and have joined in accord with the movement. Many eminent men in Canada are members of the organization. There have been great accomplishments along co-operative lines.

The U.F.W.A., closely associated with the U.F.A., specializes in certain definite studies and efforts, along the lines of health, education, legislation, social service, junior work, immigration, peace and arbitration.

The path-breaking has not always been easy. There have been foes within and without. But the basic belief is service, not selfishness, and the method is co-operative, not competitive. The pioneers of the movement have sought to make the foundation substantial, worthy of a great structure.

There are three things necessary for peace (1) effective agencies for international justice; (2) removal of causes of war; (3) education for peace.

Public opinion is the actual basis of law and order, and active public opinion must support the League of Nations. Canada has a recognized status in the League. Her election to a seat is important first because she is the first Dominion, and second, she is the first in North America. Incidentally only five nations in the world show higher foreign trade figures.

Twenty eight nations have signed the optional clause, agreeing to settle all international disputes by arbitration. Canada has not signed, thought her delegate has said that Canada is ready for arbitration. But she herself has paid scant attention.

The removal of the causes—One great menace is "preparedness for war." This tends to be self-perpetuating. When you prepare for war, you are apt to get war.

The abolition of conscription removes one state of preparedness. This would be the first step toward disarmament. Twenty-eight nations now have compulsory military conscription laws. Last March, France passed a law providing for mobilization of every French citizen, regardless of age and sex, and conscription of all private resources of her people, in time of war. Similar laws are being considered elsewhere.

The annual sum expended in Great Britain for military purposes is 116 million pounds or 1 million more than before the war. This sum might wipe out slums and remove causes of unhappiness from great portions of the world.

The education for peace is a process of making war on war. Christianity should have struck a most formidable blow to war, but Christianity does not possess the world. Theoretically people subscribe to the Sermon on the Mount, but there is much lip service. However "the star once seen is never lost."

Peace has a spiritual foundation. The fruits of the spirit are sympathy, understanding, unselfishness, truth and tolerance. This together with the great ideal of bringing nations together. The spiritual qualities must be learned in early childhood. It is the supreme work of motherhood, and her failure in this would be the supreme failure of motherhood.

The schools have a definite responsibility. The World's Federation of Education Association originated in 1923. Last year it met in Toronto, and the dominant thought was a warless world to be brought about in part by a new viewpoint in teaching.

Great education may be given on the causes of war, and a greater edu-

—CLOSING-OUT— AUCTION SALE

Having sold my Farm, the following will be offered for Sale by Public Auction, at premises, N.E. Quarter Sec. 24, Twp. 19, Rge. 24, W4, being 16 Miles North and 2 1/2 Miles East of Vulcan, 7 1/2 Miles South and 1 1/2 Miles West of Arrowwood, near Buffalo Hill School.

Tuesday, March 20

Team, Bay Gelding and Brown Mare, 8 and 9 years, 2600 lbs.; Team Pinto Mares, 7 and 11 years, 2500 lbs.; Team Brown Mares, 4 and 11 years, 2800 lbs.; Team Bay Mares, 5 and 6 years, 2700 lbs.; Team Grey Geldings, 8 and 10 years, 2600 lbs.; Team Mares, aged, 2700 lbs.; Bay Mare, 4 years, 1550 lbs.; Brown Mare, 14 years, 1200 lbs.; Black Gelding, 7 years, 1300 lbs.; Bay Gelding, 10 years, 1400 lbs.; Brown Gelding, 7 years, 1100 lbs.; Brown Gelding, 9 years, 1250 lbs. Black Mare, rising 4 years; Mouse Grey Gelding, rising 4 years; Grey Gelding, 4 years, Saddle Pony (gentle) 4 years.

4 Milch Cows, (freshened around the first of the year); 7 Milch Cows to Freshen (some before Sale); 2 Heifers in Calf, rising 2 years; 7 Head Yearlings and 4 Weaners; 30 Head Shotts ranging from 80 to 125 lbs.; 7 Brood Sows, to farrow early in May, 24 Chickens; 2 Ducks; 12 Turkey Hens and a Gobbler.

600 Bushels No. 1 Feed Oats; 1 Tons Upland Hay, 50 acres Wheat in Stock (if not threshed before Sale).

Eight-foot Massey Harris Binder (new last fall); 8-foot Massey Harris Binder; 16-run Single Disc Hoosier Press Drill; 3 1/2 Adam Wagon with Triple Box; 3 1/2 Bain Wagon with Double Box; 14x16 Cock-shutt Disc; 14x16 McCormick Disc; John Deere Disc Harrow; 14-in. Gang Plow; 3-bottom Cockshutt Disc Plow; Frost & Wood Mower; 12-foot Hay Rake; One Bob Sled; Jumper Sled; Democrat; Buggy; Hay Rake; Slip Scraper; Dipping Tank; Steel Drum with 8 gallons of Dip; Six-horse Gould, Shapely and Muir Engine with 8-inch Chopper; Chatham Fanning Mill; New Superior Fanning Mill; 10-gallon Gas Drum; 15-gallon Oil Drum; Walking Plow; Garden Cultivator; 200 Egg Incubator; 100 lbs. Binder Twine; 7 Storm Windows; Barb Wire; Fence Posts; 5 Gallon Cream Can; Churn; No. 12 DeLaval Cream Separator; Maytag Washer with Half-Horse Engine; Shovels, Chains, Forks, and Numerous Small Articles.

on political questions. The histories of the future must stress the achievements of peace. An understanding must be given of arbitration over military rule. The teacher finds opportunity to stress economic and political fallacies. Impress on students the great gifts that nations have given not economically alone, but in literature art and culture. Physical geography points the way. Commercial geography also shows nations to be inter-dependent in trade and commerce.

He was working on a high building, when he fell. In falling, he managed to grasp a telegraph wire. "Hold on!" yelled his mates, and ran for a mattress. But he let go. On his recovery he was asked why he didn't hold on. Well, he said, "I was afraid the wire would break!"

BOYS WORK BOARD

Mr. D. R. Poole, Dominion Secretary of the Boys' Work Board, who is making a tour of Alberta, has a great message to give the people of this province.

Mr. Poole spoke of the various metamorphoses which have occurred in the history of civilization. The world today in industrial, social and religious spheres, is going through one of these changing periods. These upheavals make life very difficult for the youth of today. The outcome of the changes to be wrought, for good or evil, lies in the hands of the present generation.

Teachers may seek to guide them rightly, but ultimately the responsibility for a better world rests upon our growing boys and girls. To face this responsibility they must learn to live. They must realize that to accomplish what is desired for the world, in the way of universal peace, and happiness, they must lead lives of service and tolerance. To maintain firmly the spirit of peace, Christ must be the constant example. There must be a willingness to forgive, and a humility of heart.

Examples were given of men of recent date who had released ideas, which were influencing, not only their own countries, but other lands as well. Woodrow Wilson, whose plan and desire was to make the world safe for democracy; Dr. Sun Yat Sen who sought to establish in the minds of the Chinese, a sense of equality with the rest of mankind, that in so doing all racial feelings of jealousy and bitterness might be dispelled; Gandhi who preaches unflinchingly that the way to ultimate peace lies in the non-resistance of the masses; Lenin, the great Apostle of socialism, and Mussolini, an outstanding believer in autocracy, who by military training and rigid rule is revolutionizing Italian life.

All these men and many others are contributing beneficial or destructive thoughts to the world. All these influences are at work, complicating the outlook of mankind. And to live worthily and usefully, the youth of today should follow the closer teachings of Christ's life—A man's creed, is as he lives.

In conclusion Mr. Poole spoke encouragingly of the standards of the younger generation, and of the promising lives of service of many of the youth of today. It is the custom of each older generation, to deplore the tendencies of the younger, and to predict headlong ruin. In his young day, the first young man in the village who sported a rubber tire buggy, was considered by his elders to be headed straight for ruin. This idea repeats itself from generation to generation. And he urged a greater tolerance and effort for mutual appreciation amongst young and old. The world is growing better, and by a thoughtful, useful living the youth of today may greatly hasten the progress of betterment.

British Columbia is replacing Holland, in supplying West Indies with potatoes, and several thousand crates have been shipped. If it proves profitable a welcome new outlet will be established for B.C. potatoes.

USE BETTER SEED

There is no question but that the farm revenue of Alberta would be increased this year by a vast sum if the farmers could only be induced to plant better seed grain. The three prairie provinces last year shipped over four millions of bushels of dockage to the head of the Lakes. This was largely weed seeds of which Alberta furnished her share and the quantity is undoubtedly increasing very rapidly each year. This dockage is largely uncontrollable and think what a loss it means in threshing bills, haulage and freight, all of which the grower pays, to say nothing of the decreased yield because of the weeds. The reduced yield, for which the weed losses are responsible, must amount to another vast sum annually.

A surprisingly large number of farmers neither clean their seed grain nor treat it for smut. There is small excuse for this neglect for better attention to these details is not only fairly inexpensive but it is the one remedy that will greatly assist in the reduction of the dockage.

Many will also use seed of poor vitality and germination. Heavy cleaning usually improves both of these factors by eliminating small, weak, shrivelled kernels along with the weed seeds. If one is bound or forced to use his own seed, too much stress can not be placed upon the necessity of cleaning it heavily—and a word right here about cleaning may not be amiss. When using the fanning mill keep the lower screen clean and free from clogging. If the right sized lower screen is used it will always clog easily but there is nothing that reduces the efficiency of one's cleaning operations so much as this one factor. The clogged lower screen forces all of the small weed seeds into the clean grain.

Another great loss is caused by the use of varieties not adapted to the district in which grown. Stick to the old tried and proven varieties as much as possible. Use straight Marquis wheat wherever it is sure of maturing for it is doubtful if any better variety has yet been found.

Another source of loss is caused by the use of mixed varieties. This nearly always results in the loss of a grade or two when the grain is sold for no two varieties mature at exactly the same time or have exactly the same milling qualities.

The way to remedy the present situation, to put more dollars into our pockets and defer the spread of weeds in the Province is to plant better, cleaner seed on cleaner land.

If you must use your own seed, clean it heavily and have a germination test made and treat it before planting. If the seed you have is foul with weeds, of poor germination or badly mixed with other grains or seeds of other varieties, by all means purchase better seed if you can. Then to insure good seed for the future buy a sufficient quantity of registered seed to grow your entire seed requirements for 1929. Plant this on clean ground and keep on planting on clean ground and if mother nature is kind, you will have done your part and are bound to reap a rich reward for a very small expenditure of time and money.

ITEMS OF INTEREST

Chief Commissioner Hanna, head of the Ontario Liquor Dept. gets \$20,000 a year.

The Maçons of Ontario are talking of starting a big brother movement, similar to the movement now established in Australia.

A total of 9,708 leases covering 1,199,267 acres are held in Alberta. Oil production from wells on these lands for the year ending March 31st, 1927, is given as 250,000 barrels with an estimated value of over one million dollars.

The gravel surfaced highway is completed from Edmonton to Nanton with a portion between Macleod and Nanton contracted for. It is expected that by May, 1928, a gravel surfaced highway will run from Edmonton to the international boundary line. The main highway system of Alberta now stands at 2310.7 miles.

A treatment has accidentally been discovered for sleeping sickness and its successful use is corroborated by several physicians. Glucose, originally given for nourishment, has proved to be effective in many cases, in producing great improvement.

Electrification of farms in New York State is soon to mean the installation of refrigeration plants, either large ones co-operatively owned, or smaller ones on each farm, wherein a farm can store his fruits and produce, and control his markets. This would mean the elimination of the great waste in so many farm products.

For each farm in the province the average production during 1927 was \$4,385 according to the Provincial Minister of Agriculture. Against this he gives average production for some of the States of the Union for 1925: Montana \$2,514; South Dakota \$2,355; Iowa \$2,262; Minnesota \$1,977; Kansas \$1,880. Average production per farm in Alberta in 1925 was \$3,154.

Dan McNiven who recently sold his farm for a good cash consideration, and moved to High River to reside for a time could not resist the urge to acquire more land and he recently purchased from Peter Enzenauer, M.L.A., the east half of section 35-18-25 and the west half of section 36-18-25 for an all cash consideration. The farm is an excellent one, and produces the best of grain. It is well improved with commodious home and large barn, plenty of water, etc. Mr. McNiven will take possession at once and will put in a big crop this year. He is to be congratulated on securing such a valuable farm.

It is learned on good authority that Neil Hart supported by a large company will undertake the making of a screen production to the west of High River in the foothills as soon as weather conditions are favorable, which is hoped to be about the first of May at the latest. The pictured story is expected to portray this usually delightful and beautiful part of Canada at its best and not, as has been screened, as a wilderness of snow, ice and human hardships. This will be the first picture to be produced here under the British quota rule, through the new company, lately organized in Calgary, and local and foreign Canadian and British talent will be exclusively engaged for its production.

Pinned under his horse for eight hours, John Bowlen, rancher of Alder son, Alta., was found to suffer from a dislocated shoulder and two serious arm fractures, upon arrival at Medicine Hat, Saturday night. His condition was so serious that it was decided to convey him to General Hospital Calgary, where he arrived early Sunday morning. It is thought that it will take two months for him to recover. Mr. Bowlen, who is a prominent horse breeder of the South Alberta district and well known here, stated that his horse fell and threw him on the frozen ground, causing the fractures. "I have been thrown by horses for the last 25 years," he said, "and never got a scratch, until I got caught this time."

In connection with the story of the miraculous escape of the two lost airmen in the Hudson Straits expedition, the Calgary Herald in an editorial makes the following comments on "Capt. A. A. Leitch, and his heroic part in rescue efforts. Capt. Leitch who was stationed here for several years, has many friends in town. Meanwhile equally heroic deeds were being performed in search of them. Flight-Lieutenant Leitch was stationed 500 miles west of Burwell, on Nottingham Island, at the West end of Hudson Strait, and Squadron Leader Lawrence at Wakeham Bay, midway between the two points. In spite of Arctic storms they made the distance to Burwell and began a systematic search for their missing associates. After days of effort they were compelled to believe that their search was fruitless, and the fliers were given up as lost.

From an investigation of the Dominion immigration officers, south of the line, G. C. Porter of Winnipeg, reports the likelihood of a great influx of settlers from the northern States. There have been more inquiries this winter than during the last three years, and favorable reports are going back from numbers of settlers already located in Canada. Contrary to general impression, more farmers who are prosperous come up from the States, than those who are suffering from depression. Owing to recent good times, the land in the country south of us, is selling well and can be easily disposed of. So there is every likelihood that many farmers will avail themselves of this wave, to sell out and start north.

B. J. Mensinger

FISH AND GAME

Farmers and ranchers are co-operating with fish and game associations already locally organized, for the purpose of forming an Alberta Fish and Game Association. Among the chief objectives of this provincial association will be the suppression of pests, such as crows, magpies and coyotes, the preparation of recommendations which will advance the fish and game interests in their relation to farmers, ranchers and sportsmen, and the bringing in of new game birds, such as ring-necked pheasants, which will do well in this province. In this connection, the Calgary Fish and Game Association has already arranged to bring in 1000 pheasant chicks this summer to be set out in the Calgary district. Other associations are taking similar steps and it is indicated that there may be support from the provincial government in this respect. In order to form a strong Alberta Fish and Game Association, it is desirable that local associations be organized throughout the province and all sportsmen in this district are urged to take an active part in accomplishing this end. Those who are interested, are invited to write to C. A. Hayden, President of the Calgary Fish and Game Association, who is looking after the preliminary work in connection with the forming of the provincial association.

HIGHWAYS BEING GRAVELLED

Gravelling of the Cardston-Waterloo motor road has been proceeding rapidly during the past few weeks and it is expected that this project will be completed within a short time. Some hundred yards of gravel to the mile is being placed on the highway, making it a very serviceable road. The road between Cardston and Leavitt is practically completed as is also the section between the lakes and Mountain View on the west end. Considerable work has also been done on the gap between Leavitt and Mountain View.

According to a sports journal, chess players seldom die young. They would never finish a tournament if they did.

The trouble with peace propaganda is that, when it is permitted, it isn't necessary, and when it's necessary it isn't permitted.

EASTWAY NEWS

Mrs. H. McFride is ill with the flu
and we hope for a speedy recovery.

The Eastway W.L. are putting on a
series of whist drives, the first to
start on March 17th, to be held at the
home of Mrs. William Marshalls.
Prizes will be given. Everybody wel-
come.

The Boys' Club of Union Jack put
on a dance and masquerade on Friday
9th. A fair crowd turned out in cos-
tumes which were reported very good.
The prizes were awarded to Miss Vio-
let Holmes, an old-fashioned girl;
Miss Dolly McKinnon, circus girl;
Mr. Vaux Paine, a French Count; Mr.
Frank Wyatt, Indian.

A leap year dance and shadow
sale was held on March 3rd in the
Union Jack school house and a large
crowd turned out. At the supper
hour a curtain was stretched across
the room, the men went behind the
curtain and the ladies had to bid on
the shadow for their supper partners.
Mrs. Lent being the auctioneer and
Mrs. Broderick clerk of the sale.
Music was furnished by Mrs. Hend-
erson and Mr. Hanson.

Customer—"Can I change these
pants at this counter?" Clerk—"Well
I'll tell you mister, we have quite a
few women shoppers, so maybe you'd
better go to the dressing room."

SPECIALS GOOD FOR 1 WEEK ONLY.
ENDING FRIDAY, MAR. 23rd

ENSIGN NEWS

Ensign has shipped 12 cars of grain
this last week.

Mrs. J. B. Fournier from New
Brunswick, is visiting with her daugh-
ter, Mrs. Bourque.

Mr. T. Brown has given up his po-
sition as janitor for the school. Mr.
E. Gerard has fulfilled the position.

Mr. and Mrs. R. Williams are visit-
ing with their cousins, the Misses Wil-
liams.

Mrs. H. Brown and Doris left Sat-
urday to spend a vacation with her
sister-in-law, Mrs. H. McKay at Medi-
cine Hat.

Mr. and Mrs. R. Beauchamp and
family have given up their home in
Maine and are settled here to live on
Mr. Beauchamp's farm.

Ensign church services: Sunday
afternoon 2:30 Sunday school; 3 p.m.
church, Ensign school. Rev. R. Har-
den, preacher. All are welcome.

Much sympathy is felt for Mrs. G.
Flebotte and Mrs. P. Couture on re-
ceiving word of the death of their fa-
ther, Mr. Thomas Geon of Springfield
Mass.

Mr. A. St. Pierre has left Ensign
and taken up a larger business of
barbering at Okotoks. Being such a
good first class barber, he will be
greatly missed. Nevertheless we all
wish him success.

Glad to see more of our Ensign
friends back home again. Mrs. Is-
obel Church with Mr. G. Churchill af-
ter sending the winter visiting with
relatives, in the States, and very glad
to be back home to Ensign.

Mr. and Mrs. B. Brown have sold
their house in town and have taken
up new life farming on Mr. G. Fle-
botte's farm. Mr. T. Brown, Sr., has
also gone with his son on the farm.
We wish them all the good luck in
their new enterprise.

The concert given by the members
of the Ladies' Aid at Ensign school
March 2nd, proved to be quite a suc-
cess, the school being well attended
by a large audience who thoroughly
enjoyed the programme which was
well put over by Mrs. H. Becker, Mrs.
Murdoch and Mr. Edwards, funds be-
ing contributed for church.

On March 7th the members of the
Ladies Aid met at the home of Mrs. A.
Meyers, there being quite a large at-
tendance. Two more members were
added to the list. Missionary read-
ings by Mrs. Meyers and Miss Bella
Williams, also arrangements and
topics for programmes, etc., for next
meeting. Tea and refreshments were
served by Mrs. A. Meyers, Miss Bella
and Miss Georgia Williams. Next
meeting to be held at the home of
Mrs. E. Harris on April 4th. All la-
dies are cordially invited.

BLACKIE NEWS

Blackie citizens are not asleep at
the switch when it comes to organiz-
ing for summer sports. Already ar-
rangements are under way for the se-
curing of a good baseball team and a
committee has been formed to proceed
with organization work. Citizens
generally are enthusiastically boost-
ing for a good ball club and they will
have it or know the reason why.

A. Bert was summoned by Leonard
Anderson for pointing a gun at him
on Saturday afternoon. A quarrel
took place in regard to trespassing
cattle. The language used by Ander-
son provoked the defendant with the
above result. The gun, however con-
tained no ammunition. The court
fined Bert \$10.00 and costs making a
total of \$23.50 or thirty days hard la-
bor. The case was tried at Blackie
on Monday afternoon.

The Georgian Singers gave an ex-
cellent programme at the Auditorium
on Friday night and all who heard
them pronounced them to be enter-
tainers of a very high order. They
appeared in old time costumes, sang
favorite songs of old lang syne in
fine voice, related excellent stories
and withal gave a meritorious pro-
gramme that was well worthy of a
bigger house than they were favoured
should they again return we believe
they would attract a large audience.

Telephone Operator—"I have your
party. Deposit five cents, please."
Souze at Pay Station—"Whazzat?"
Operator—"Please deposit your mon-
ey." Souze—"Listen, girlie, wat I
wan's a conversash'n from a fren,
not financial advice from a stranger."

KIRKCALDY NEWS

Mrs. Sprunt is spending a few days
in Aldersyde with her parents.

Mrs. Fox of Kirkcaldy spent sev-
eral days in Barons last week.

Mrs. Ross Hollister returned home
Friday after spending several days in
Nanton.

We are very sorry to report that
Joe Myers who is away visiting at
Bowden hasn't returned home yet.

Mrs. Eugene Kuykendall left on
Wednesday for Grande Prairie where
she will join her husband. On Sunday
last she was presented with a beauti-
ful silver bread tray from the Sunday
school.

The Girls' Club will put on a so-
cial evening and programme at the
community hall on March 23rd at 8:30
p.m. A silk best spread will be raf-
fled off. No admission and every-
body welcome.

ITEMS OF INTEREST

The Lacombe Horse Sale held on
March 7 was a big success. There
were 277 sold at an average price of
\$89.65 making a total of \$24,832.

Germany is launching a battle for
the toy trade of the world. It has
been a stiff battle against America,
England and Japan, and America is
declared to be the stiffest competi-
tor. A world-wide advertising cam-
paign is to be launched.

A record high price of \$1,000 was
paid during the past week for a seat
on the Calgary Stock Exchange, by
Solloway Mills & Co., of Toronto.
This company plans to open a branch
office in Calgary as part of their con-
tinental-wide service to investors.

Fire of unknown origin completely
destroyed the derrick on the site of
the Home No. 3 oil well in Turner
Valley, last Wednesday morning. At
the last report from the drillers the
well, which was started only recently,
had reached a depth of 152 feet.

It is rumored that negotiations are
under way for the union of Newfoundland
and the Dominion. In March
a delegation from Newfoundland will
meet at Ottawa, and if any reason-
able basis can be reached, Canada
will welcome this independent old
country into the Dominion. If New-
foundland were admitted to the Con-
federation, Labrador would all likely-
hood become of great value to the Do-
minion from a scenic viewpoint.

LOST

DOG—Scottie Collie, marked with black
and brown and with small white ring
around neck, answers to the name
"Prince." Five dollars reward for
recovery of the animal. Gus Spivak.
Phone 2163, Vulcan. Mar16fc

ITEMS OF INTEREST

Premier Brownlee will leave Ed-
monton shortly for Ottawa to discuss
the question of ceding the power de-
veloping rights of the Spray Lakes to
the province.

Quebec's liquor profits in 1927 were
over \$6,000,000 and think as you may,
that money is better in the provincial
treasury than in the pockets of boot-
leggers.

The Clarendon Board of Trade
have taken up the matter of town
beatification, and a horticultural
committee has been appointed to pre-
pare plans and suggestions for active
adoption.

A truck loaded with 250 cases of
liquor was seized by the police in New
Jersey and later it developed that the
whiskey was the property of the Chile-
an Ambassador at Washington, who
is entitled to the same. Later on
some of the dry Congressmen and
Senators will no doubt be drinking
this liquor on the premises of the
Chilean Ambassador.

American educationists are taking
active interests in the Provincial
Boys' Parliaments of Canada. Col-
umbia University has been studying
the project. At the last sessions of
the provincial parliaments, various
representatives of Boys' Work in the
States were present, obtaining first
hand information. There is no doubt
that United States will inaugurate
some form of boys' parliament in the
near future.

The efforts of fish and game asso-
ciations to protect fish and game
birds throughout the province will be
extended as a result of the organiza-
tion of a unit of the association at
Medicine Hat during the past week.
Interest will be taken in the steps to
re-stock Alberta lakes and rivers
with game fish and to introduce a
number of species of game birds into
the province. The following officials
of the association were elected: pres-
ident, A. P. Burns; vice president,
Dr. Moore; secretary-treasurer, A. J.
McTearl; executive committee, D.W.
Hays, Harry Bray, C. A. Anderson,
Charles Pratt and C.H. Niles.
